

Puck+

Puck+, caricatore wireless multiplo, ricarica la lampada Suro e altri dispositivi prodotti da Lym, ma anche prodotti compatibili come gli smartphone di ultima generazione; grazie al "Tower Kit" è possibile sovrapporre più caricatori in modo sicuro e stabile, creando diversi ripiani di ricarica in uno spazio limitato.

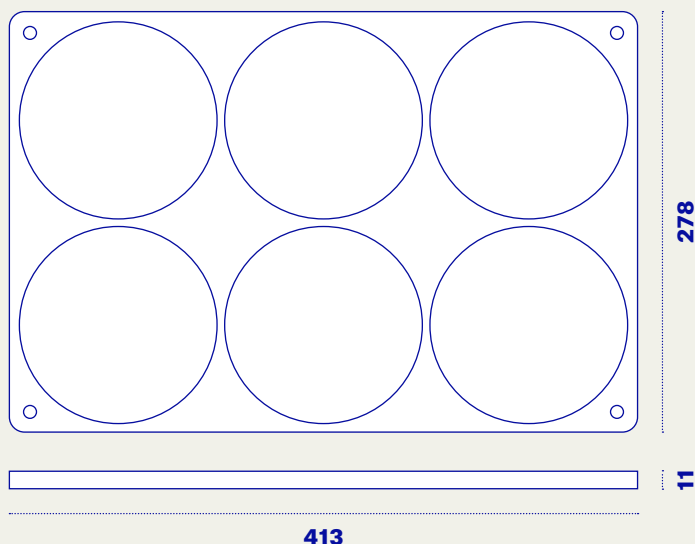

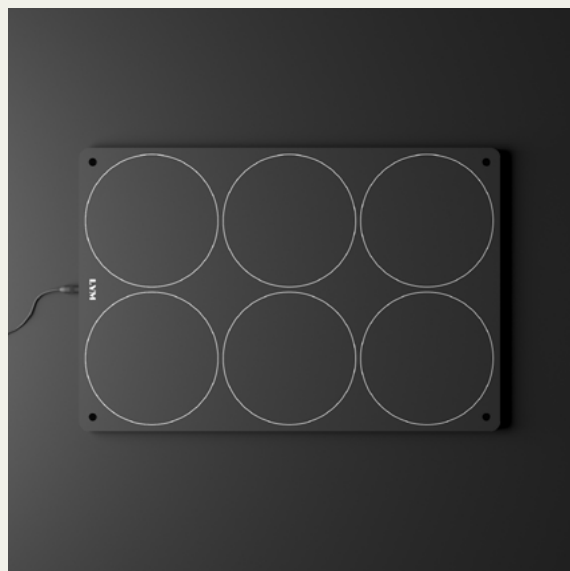

Puck+, multiple wireless charger, charges the lamp Suro and other devices produced by Lym, but also compatible devices such as last generation smartphones; thanks to the "Tower Kit" it is possible to overlap more chargers in a safe and stable way, creating different charging layers in a limited space.
